Sponsor: Senator Gowan, LD 14

Committee on Health & Human Services

Overview

Creates the Arizona State Hospital Governing Board (Governing Board) and transfers the powers, duties and responsibilities of the Arizona State Hospital (ASH) from the Department of Health Services (DHS) to the ASH Governing Board and ASH Director effective January 1, 2023.

History

[ASH](#), a division of DHS, is a 260-bed facility that provides long-term inpatient psychiatric treatment to individuals with mental illnesses, personality disorders or emotional conditions who are under a court order to receive treatment. ASH is divided into 3 separate facilities: 1) The Civil Hospital; 2) The Forensic Hospital; and 3) The Arizona Community Protection Center (ACPTC).

Patients receiving treatment at the Civil hospital have been court-ordered to receive involuntary treatment as a result of having been determined to be a danger to themselves or others, gravely disabled or persistently and acutely disabled. Patients receiving treatment at the Forensic Hospital are court-ordered for either pre-trial or post-trial treatment as a result of involvement with the criminal justice system due to a mental health issue. ACPTC supervises and treats persons classified as sexually violent persons ([A.R.S. Title 36, Chapter 2, Article 1](#)).
